

Figure S4

Variation among sub-Saharan African countries in determinants of SARS-CoV-2 mortality risk by category

A subset of variables is shown in Figure 3D-E in the main text, the remaining variables are shown and available online: [\[SSA-SARS-CoV-2-tool\]](#)

A: Select national level indicators; estimates of increased comorbidity burden (e.g., higher prevalence of raised blood pressure) shown with darker red for higher risk quartiles. Countries missing data for an indicator (NA) are shown in gray. For comparison between countries, estimates are age-standardized where applicable (see **Table S3** for details)
